

SE EXCISE CHEMICAL TAX REFERENCE

Date: July 5, 2023

Ubiquiti Products under the Swedish Act on Tax on Chemicals in Certain Electronics.

Deductions

Based on information provided by the Manufacturer and to the best of our knowledge, these products qualify for the reductions for the non-use of brominated and chlorinated flame retardants over .1% (in the PCB and Plastic Parts over 25 grams) and 95% reductions for additional non-use phosphorus-based flame retardants as specified in the following table:

Model	CN codes	Tax Deduction	Model	CN codes	Tax Deduction

Sample Tax Calculation

Check Tax Rate by CN codes, and calculate by below fomula.

$$\text{Weight X Tax Rate} = \text{Subtotal X [1 - Tax Deduction]} = \text{Total Tax}$$

This document is intended to be used as reference for the calculation of the Tax on Chemicals in Certain Electronics of Ubiquiti's products, however it does not exempt the importer or responsible entity for calculating, paying and reporting the tax under the Act to fulfill its obligations.
